6 Handle Facial lifting technology

Fractional Radio frequency in 4 handle sizes for toning, tightening, lifting and collagen production of the skin on the face and body. This treatment uses no needles but rather a bipolar Radiofrequency pulse that penetrates deep into the dermis of the skin. This treatment is and non invasive.

Large handle for body 23mm x 23mm

Medium handle for body 12mm x 12mm

Medium handle for face 17mm x 17mm

Small handle for face and eyes 15mm radius

Restructure facial muscle fibers with the electro muscle stimulation two polar and four polar handle. Generating generous heat of between 45 to 60 degrees Celsius.

Treatment takes 15 -25 minutes and is repeated every 15 days. One complete cycle for face lifting is 10 sessions.

System Specifications:

Power	≤150W and 220 v
RF	1 MHz
Screen	8-inch color touch screen
Handles	EMS Bi-polar RF 1 piece; EMS Four polar RF 1 piece
	Fractional RF Handles 4 pieces
Voltage	110V/220V, 50Hz/60Hz
Package	Height 42cm x Width 42cm x Length 33cm
